Patient Consent Form

Our Notice of Privacy Practices provides information about how we may use and disclosed protected health information about you. The Notice contains a Patient Rights section describing your rights under the law. You have the right to review our Notice before signing this Consent. The terms of our Notice may change. If we change our Notice you may obtain a revised copy by contacting our office.

You have the right to request that we restrict how the protected health information about you is used or disclosed for treatment, payment, or health care operation. We are not required to agree to this restriction, but if we do, we shall honor that agreement.

By signing this form you consent to our use and disclosure of protected health information about you for treatment, payment, and healthcare operations. You have the right to revoke this Consent, in writing, signed by you. However, such a revocation shall not affect any disclosures we have made in reliance on your prior Consent. The Practice provides this form to comply with the Health Insurance Portability and Accountability Act of 1996 (HIPPA).

The Patient understands that :

1. Protected health information may be disclosed or used for treatment, payment, or healthcare operations.
2. The Practice has a Notice of Privacy Practices and that the patient has the opportunity to review this Notice
3. The practice reserves that right to change the Notice of Privacy Practices.
4. The patient has the right to restrict the uses of their information but the Practice does not have to agree to those restrictions.
5. The Patient may revoke this Consent in writing at any time and all future disclosures will then cease
6. The Practice may condition receipt of treatment upon the execution of this Consent.

This consent was signed by Park Min hye 11/16/17

OPERATIVE REPORT

Name of patient:

MINHYE PARK

Patient date of birth:

[REDACTED] 1988

Preoperative Diagnosis:

ELECTIVE TERMINATION OF PREGNANCY

Procedure:

SUCTION DILATATION AND CURETTAGE

Postoperative Diagnosis:

ELECTIVE TERMINATION OF PREGNANCY

Surgeon: David Kim, MD

Assistant: None

Anesthesiologist: Gou, MD

Anesthesia: MAC

Complications: None.

Estimated Blood Loss: 20 mL

Specimen(s): PRODUCTS OF CONCEPTION.

Description of Operative Procedure:

After risks and benefits of options were discussed with the patient, informed consent was signed and obtained. Patient understands and accepts possible risks of suction dilatation and curettage, including but not limited to bleeding, perforation of the uterus, infection, perforation of the uterus (with or without possible injury to organs surrounding the uterus (including but not limited to the urinary bladder and/or the bowel), cervical laceration, Asherman's syndrome, and/or pain. Informed consent was signed and obtained. Patient voided urine in the bathroom, and then was transferred to the operating room.

MAC anesthesia was given by Dr. Gou. Patient was then placed in the dorsal lithotomy position, then prepped and draped in sterile fashion. Sterile heavy weighted speculum was placed in the posterior portion of the vaginal vault. A Sims speculum was placed in the anterior portion of the vaginal vault. An Allis clamp was used to grasp the anterior lip of the cervix. The endocervical canal was gently and gradually dilated with Hanks dilators. A 6 mm suction curette was used to perform a suction curettage. A sharp curettage was then gently performed throughout the endometrial cavity until a gritty texture was appreciated. A suction curettage was repeated to remove the remaining products of conception. All instruments were then removed from the vagina. Excellent hemostasis was visualized. Instrument and sponge count were correct times two. Patient was transferred to the recovery room in stable condition.

Discharge Instructions:

1. Pelvic rest: No sex, no tampons, no douche, and no tub baths for 3 weeks.
2. Call Dr. Kim and go immediately to NY Hospital of Queens ER if fever, severe abdominal pain, or heavy vaginal bleeding.
3. Advil 400mg po q 6 hours with food for 3 days prn pain.
4. Follow up with Dr. Kim in the office in 3 weeks.
